

Navigation of the Colorado.

It is a question of vital importance to all of those, who now, or may hereafter, inhabit the Great Basin, whether that magnificent stream, whose sources are in the Rocky mountains, and one large tributary of which, itself in many places a navigable river, flows from regions still further north, can be made available for the uses of commerce, in bringing within the reach of easy land transportation, those articles of luxury and necessity which are now brought at great cost and over desert roads more than a thousand miles to Utah.

We have long been of the opinion, formed from actual observation, that the Colorado, sooner or later, would be used for the purposes named, as, if navigable, it is as certainly the natural channel of commercial intercourse between Utah and the outside world. This point seems now to be definitely settled and the feasibility of bringing steam transportation up to the southern borders of this Territory, proved beyond a peradventure. It now only remains for the merchants of Utah to encourage the enterprise by their patronage, and, as such patronage would result in great advantage to themselves as well as to the entire community, we cannot doubt it will be offered.

We had the pleasure of a visit recently, from Capt. Thomas E. Truworthy, an old and well-known California steamboat man, who has succeeded in bringing the steamer Esmeralda up the Colorado to a point, where she now lies, only twenty-eight miles below the new town of Canville, lately established on the river, at the mouth of the "Los Vegas," some three hundred and fifty to four hundred miles from Salt Lake City. The Esmeralda is 116 feet in length over all, by 26 feet breadth across the guards, and draws 17 inches when light. On her upward trip she towed a barge astern 126 feet in length with 26 feet breadth of beam, and, when it is considered that the river during the winter, is at its lowest stage, the practicability of its navigation would seem to be settled by the demonstration of Capt. Truworthy.

In guarantee of his own confidence he offers to undertake the delivery, at Canville, of any amount of freight, not less than one hundred tons, at a cost one third less than the prices now paid for its transportation overland, and, for the performance of which, he will, if required, give good and sufficient bonds. The present rates for freight from San Francisco by the river are as follows: To the mouth \$20 per ton, to Ha dy's Landing, above Fort Mojave, \$100, beyond which point the navigation has been discouraged by those interested in not extending it further and hitherto by many believed to be impossible. But this adventure of the Esmeralda, under the experienced guidance of Captain Truworthy, has placed it in the power of our merchants to make Canville the head of steam navigation, although it may interfere with the schemes of parties, whose interests would place it more than a hundred miles lower down the river. The opportunity, so long desired, has arrived at last, and we trust the enterprise of Capt. Truworthy will not be discouraged for want of patronage and that the interests of moneyed men of Utah will enable them to make the Esmeralda a permanent institution on the upper waters of the Colorado.

The weather is rather dubious, clouds still hover over us, the sun occasionally shows itself, the air is at one hour chilly, the next it might be called warm, and at another, it is a sort of a mixture of cold, warm and damp. But settled weather is not here yet.

THE "Confederacy" again resolves to perish in the last ditch, and the Union Generals appear willing and determined to accommodate it. A good deal of spading has been done around Richmond, and we would not be surprised to hear at any moment that the ditch is completed. Jeff. Davis certainly "has the game in his own hands." The London Times says so, Beriah Brown says so, and of course it must be so. But it is a game that two can play at and the best cards must win. The last demonstration in Richmond, judging from the speeches of Davis, Stevens & Co., was a mere game of "bluff"—very dangerous when against a "full." For our own part we are rather pleased than otherwise at the renewed determination of the Southern leaders to "fight it out to the bitter end." It will be a good climax to this tragedy of war,—and will save the expense of numerous court-martial and bales of hemp. We have a premonition that the negroes whom they are going to arm to fight for their slavery, will appoint a funeral by and by and that the "corpses will be ready."

AN ADDRESS TO THE PEOPLE.

BY A RESIDENT OF UTAH.

ARTICLE 6.

I again quote, "Will the litigious and pettifogging lawyers reform, and cease disturbing and preying upon the innocent? Most probably not. What remedy then have the honorable and upright? If a court is known to trample upon our laws, by which all our courts exist, and that court summons you to serve on a grand jury, inform the officer that a court, which rules out the law by which it is constituted a court, has no existence and you cannot attend the sitting of a nonentity."

Notwithstanding the specious nature of the argument by which the author of the paragraph just quoted, seeks to palm off his disloyal counsel upon the unsuspecting dupes of his master, no person of sound judgment can fail to perceive the spirit of hostility to the Judges of the Supreme and District Courts which it implies, nor the hostility towards them it is intended to engender in the minds of the people.

Considerable might be said on this subject; but I pass to another portion of this editorial, from which I quote the following advice to lawyers:

"And now, O ye pettifoggers and lawyers, if you wish to act like men, and good and loyal citizens, always plead, if plead you will, for justice—fair, even-handed justice, dimes or no dimes, and spurn the oath requiring you to be true to your client, RIGHT or WRONG, back to the dark recess of hell where it belongs, and from whence it emanated."

This, fellow-citizens, caps the climax! Can it be possible that any sane man professing to be a saint, lawyer, editor, and patriot, is capable of being so consummate a hypocrite as in the same breath, or with almost the same stroke of the pen, to advocate loyalty and even-handed justice, and yet counsel the loyal defender and expounder of the law to SPURN HIS OATH?

Oh, Utah! this ill befits thee. Thou that sanctionest the administering of oaths which it were death to reveal—thou, that hast caused the blood of scores of thine own sons and daughters to flow for the smallest violation of those oaths—thou that bindest thy people together in the most solemn and fearful of oaths, covenants and obligations, and that hast promoted thy sons to the chief offices in thy Ward, thy courts, and thy priesthood, for the faithful performance of those oaths, even to the murder of their own kinsman, and hast held up as an example of piety the wretch that murdered his wife in the performance of his oath—thou sanction the spurning of an oath, and publicly advise it! Bismarck thou at thy inconsistency, and close thy mouth in silence, for thine own records proclaim thy deeds to thy shame, and out of their pages shall come forth witnesses against thee, whose testimony shall confirm thy guilt and be corroborative of the written but unpublished testimony of living witnesses within the pale of thy church, whose revelations shall reprove thy unblushing impudence and condone thee to the execrations of a justly indignant nation, whose laws thou hast trampled under thy feet, whose officers thou hast insulted, condemned, and driven from thee, and whose people, men, women and children, THOU HAST BRUTALLY MURDERED IN COLD BLOOD! Out of thine own history shall thou be condemned, thou the unjust, and parent of iniquity!

By-Laws of Rush Valley Mining District, as Amended, March 4th, A. D. 1865.

ART. 1. This District shall include that portion of territory situated in the Territory of Utah, as follows:

Beginning at a point on the northern boundary line of West Mountain Mining District, where it intersects the eastern line of Tooele county, to follow this line to the point of its intersection with the southern boundary line of West Mountain Mining District; thence along said line to its intersection with the one hundred and fourteenth (114°) degree of longitude west from Greenwich; thence along said one hundred and fourteenth (114°) degree of longitude to the forty-first (41) parallel of latitude north; thence east to place of beginning. The same to be known as the Rush Valley Mining District.

ART. 2. The extent of a claim on any mineral vein shall be two hundred (200) feet along the lode, with a width of one hundred (100) feet on each side of the lode, including all its dips, spurs, angles, depths, widths, off-shoots, out-croppings, variations and all the minerals and other valuables therein contained; and priority of location shall determine the ownership of all cross or other leads traversing ground claimed under these laws. The discoverer and locator of a lead shall be entitled to one claim additional for discovery.

ART. 3. No person shall hold more than one claim by location on any one vein; by purchase any number of claims may be held.

ART. 4. All claims shall be measured on a horizontal line, and numbered 1, 2, 3, etc., if from the discovery claim either way.

ART. 5. Each company shall do one faithful days work on their claim each month, each individual claimant doing or causing to be done his or her pro rata amount of said days work, and failing to do so such claim or claims will be subject to re-location, provided, however, that should the company be prevented from working by local insurrection or rebellion, that claims shall not be forfeited; and provided further, that no claim belonging to a soldier shall be subject to re-location until six months shall have elapsed after his discharge from the service of the United States, unless he shall sign an agreement or articles of incorporation to the contrary.

ART. 6. Work done or caused to be done by the owners in any Tunnel, Cut, Shaft, Water ditch or privilege in good faith for the benefit of any claim, shall be considered as done on the claim owned by said person or company.

ART. 7. All claims shall be recorded within ten days after a notice of location shall have been posted thereon, but a notice filed for record in the Recorder's office shall be considered in all cases equivalent to a record.

ART. 8. Claims on Gold surface diggings shall be each two (200) hundred feet square.

ART. 9. Locators on veins of coal or Iron shall be entitled to five hundred (500) feet additional for discovery and in all other respects shall be subject to and enjoy all the privileges etc. of these laws.

ART. 10. Whenever a mound of stone three feet in diameter on the ground and two feet high shall be erected having a permanent notice posted thereon naming the lode and company and the sum of three cents per foot shall have been expended upon the claims of any company of this District, the ground so claimed by said company shall be deemed as belonging in fee to the owners and their assigns and the same shall not be subject to re-location by other parties ever after, provided that whenever an individual claim owner, owning in any company in this district shall on such company's claim have erected or caused to be erected a mound of stone three feet in diameter on the ground and two feet high with a permanent notice thereon, naming the lode and company and shall have expended in addition thereto three cents per foot for each foot owned by said claim owners in said company's claim, his or her interest shall be deemed as belonging in fee to the owner and the same shall not be subject to relocation by other parties ever after, and provided further that it shall not be necessary for individual claim owners to erect mounds on companies claims where such mounds may be already erected.

ART. 11. A certificate from the Recorder, attested by the seal of his office, certifying that any claim belongs to the owner in fee, shall be legal evidence thereof in all courts in this Territory, provided that it shall be unlawful for the Recorder to certify that any claim belongs in fee to the owner until he shall be satisfied that said owner has complied

with the conditions of article tenth (10th).

ART. 12. Whenever any claim owner or owners in any company in this district shall see proper to work or develop their claims, they shall call a meeting of all the company claim owners, by posting notices, one at the Recorder's office, and one in the most conspicuous place in this district, naming the time, place and object of the meeting, and should the company fail to agree in regard to working or developing their claim, any person or persons owing in the claim shall be at liberty to work said claim, and levy an equal assessment, pro rata per foot, upon each individual claimant, to defray the necessary expenses of such work or development, the same to be adjudged by three disinterested claim owners in this district, who shall be chosen in the following manner: One by the party or parties doing or causing said work to be done, one by the owner or owners in said claim, who may not have joined in doing or causing said work to be done, and the third by the two first. Should any of the claimants fail to pay their assessments, these doing the work shall be at liberty to take the same from delinquent's portion of the proceeds from the mineral of said claim, and in no other way shall they be able to force a collection of the said assessments unless an agreement shall have been entered into to the contrary.

ART. 13. All voters at meetings to regulate mining interests, shall be claim owners in this District.

ART. 14. All meetings for the purpose of election, or changing these laws, must be called by posting written notices in at least three public places in the District, or by publishing the same in some newspaper printed in the Territory; said publication to be made by the Recorder, in either case, during at least twenty (20) days previous to such meeting, stating the object thereof.

ART. 15. There shall be a Recorder chosen from among the miners of the District, who shall hold his office during a term of one year, unless a successor be duly elected, which can only be done by a majority of the legal voters present at a meeting for that purpose.

ART. 16. He shall record all claims presented for that purpose, and be entitled to receive therefor a sum not exceeding one (\$.) dollar for each separate claim or company.

Provided, That it shall not be lawful for him to record any claim in conflict with a prior location. He shall endorse on all notices placed on file in his office, the exact time of presentation for record. It shall be his duty (if required by the locator) to furnish each share-holder with a certificate of his claim, attested by the seal of his office, for each of which he shall be entitled to receive the sum of fifty (50) cents. Before recording any claim he shall satisfy himself that no rights are infringed.

ART. 17. The records of all claims located in this District, and heretofore recorded under the laws of West Mountain District, shall be transcribed into the books of this District, but from the date of the adoption of these laws such claims shall be in all respects, except as to dimensions, subject thereto.

ART. 18. The Recorder shall keep two series of books, in one of which to record all locations, and in the other all transfers of claims in this District, to be styled Book A, B and C, of Transfers, and book A, B and C, of Claims. In the former of which he shall place on record all deeds of shares presented for that purpose, for which he shall be entitled to receive a sum not exceeding one (\$.) dollar in each case, and all such records with the necessary revenue stamp affixed, shall be deemed legal evidence of a sale or ownership, as the case may be.

ART. 19. All examinations of records shall be made in the presence of the Recorder or his deputy. When relieved, the Recorder shall turn over to his successor all books and papers pertaining to his office. He shall have a seal, and attest all acknowledgements on certificates made by him. Provided that he may use his private seal until the proper seal of office shall be procured.

ART. 20. All records and copies thereof properly certified, shall be legal evidence of their contents in all courts in this Territory.

ART. 21. It shall be the duty of the Recorder to keep a certified copy of the laws of this district; also a certified copy of the proceedings of any miners meeting held in this district which may be left with him for that purpose, pursuant to the vote of any such meeting.

E. P. JOHNSON, Sec'y.

A. J. DILDINE, Pres't.

WHERE did Noah preserve his eye during the flood? In the ark hives of the old world, of course.

A TRUE PATRIOT—Major General Thomas having heard that the citizens of Cincinnati and Louisville were raising money for the purpose of presenting him with a testimonial of some sort, wrote them a letter, saying: "Whilst I am duly and profoundly sensible of the high compliment thus proposed to be paid me, I would greatly prefer, and if not premature, request that any sum which may be raised for that purpose may be devoted to the founding of a fund for the relief of disabled soldiers, and of the indigent widows and orphans of officers and soldiers who have lost their lives during this war. I am amply rewarded when assured that my humble services have met with the approbation of the Government and the people."

MARVELOUS CASE OF UNRAVELING.

—A man named Douglas, who frequently sips from the "flowing bowl," came home late one night, a little more than "half seas over," and feeling thirsty, procured a glass of water and drank it. In doing so he swallowed a small ball of silk that lay in the bottom of the tumbler, the end catching in his teeth. Feeling something in his mouth, and not knowing what it was, he began pulling at the end, and the little ball unrolling, he soon had several feet in his hands, and still no end apparently. Terrified, he shouted at the top of his voice, "Wife! wife! I say, wife, come here! I am all unraveling!"

Local Matters.

A LARGE and handsome stock of Dry Goods is now open at the New York Store, S. L. City. A fine assortment of Groceries, and a complete lot of Farming Implements are for sale at this store. Every variety of goods, and in quantities to please, can be purchased at the New York Store at a slight advance on cost. Goods at this store are exhibited free of charge and with pleasure.

THE Dashaway's ball on Monday evening was a complete success, everything passed off joyfully and merrily—dancing was entered into with a good will and the small hours of morning rolled round ere anybody complained of being tired. The Society will please accept our acknowledgments for a complimentary ticket.

ANOTHER "BALL" UNDER WAY.—The Camp Douglas Quadrille Band will give a "social party" soon. The tickets are priced at \$2.00, somewhat reasonable for a soldier.

If one wishes to have dry feet this sloppy weather, purchase a pair of the excellent Boots at Gurney & Co's.

The late storm has severed the wires in various places, and communication is again impossible.

We publish, to day, the Mining Laws of the Rush Valley District. They will be found interesting.

CHINESE KNAVERY.—The Nevada Transcript says:

Chinese flume robbers have hit upon a new invention for robbing flumes at night. They use a polished copper rod, which they insert between the blocks. The amalgam adheres to the rod as it is withdrawn, and is rubbed off into a bag, and the operation gone over again until the flume is stripped. By this means a long set of flumes may be robbed in a short time, while the water is running, without the boxes or riffles being disturbed, or any evidence left by which the nefarious work is suspected in the morning. Cañon flumes are allowed to run several weeks by their owners, without cleaning up; and these often fail to find gold enough in the flumes to pay the expense of running, much to their surprise, where they should find hundreds of dollars. The infernal ingenuity of these Chinese robbers, which is exercised all over the country, can best be counteracted by a night guard and a liberal use of shot guns.
